Working with a Professional Interior Designer Can Turn Any Old House into Your Beautiful Home

In today's real estate market, everyone is taking a closer look at their home. Those who are selling want to get the most profit; those who are buying want to make the best deal. And those who are staying put want their homes to have modern appeal and lasting value. From a cottage on the coast to a ranch in the hills to a condo downtown, good interior design can make all the difference.

What is your favorite color combination?

Green, gray and white mixed with a neutral beige or yellow – oh, and with a drop of blue.

Do you collect something?

Chairs – classic chairs – It was an accident and I (really “we”, because my husband has the same problem!) had to stop because there was no place to put them.

When it is time to relax, what is your favorite room in your home? *My living room is my favorite place to relax after a long day. My sofa is very comfortable and guess what? The room is designed in green, gray and white mixed with a neutral beige and yellow – oh, and with a drop of blue. It is also home to some of my favorite classic chairs.*
